

# These aren't the droids lecture notes you're looking for!

Currently, the lecture notes for the Geometric Group Theory courses are under revision; the current draft version of this book project is available at:

[http://www.mathematik.uni-regensburg.de/loeh/ggt\\_book/ggt\\_book\\_draft.pdf](http://www.mathematik.uni-regensburg.de/loeh/ggt_book/ggt_book_draft.pdf)

There will be major changes/corrections in summer 2017 and the book project will be completed in late 2017.

The original lecture notes can be found at:

[http://www.mathematik.uni-regensburg.de/loeh/teaching/ggt\\_ws1011/lecture\\_notes\\_old.pdf](http://www.mathematik.uni-regensburg.de/loeh/teaching/ggt_ws1011/lecture_notes_old.pdf)  
[http://www.mathematik.uni-regensburg.de/loeh/teaching/ggt\\_ws1415/lecture\\_notes\\_old.pdf](http://www.mathematik.uni-regensburg.de/loeh/teaching/ggt_ws1415/lecture_notes_old.pdf)

However, I cannot really recommend using them (they contain zillions of typos and more serious mistakes; hopefully, the book project will be better in that respect once finished).
